Cleaning systems for maximum performance and profit

2008

Two great families – one great company

This is a story of two strong families joining forces forces in a common quest of becoming a world class manufacturer and supplier in the professional cleaning market.

On this side of the Atlantic, the Marino family and brand is well known, highly trusted and recognized for its excellent products and service. In Europe, the Vileda Professional brand name also family-owned represents high-tech solutions, cutting-edge innovations and smart, ergonomic designs.

We chose to unite our two families. The reasons for this choice were obvious. We share the same values, ideals and ideas. Our union provided us with the opportunity to become a formidable manufacturer and supplier in the professional cleaning industry supplying the customer with more selection.

We are now stronger than ever. With this newly formed alliance our product offering has more than doubled.

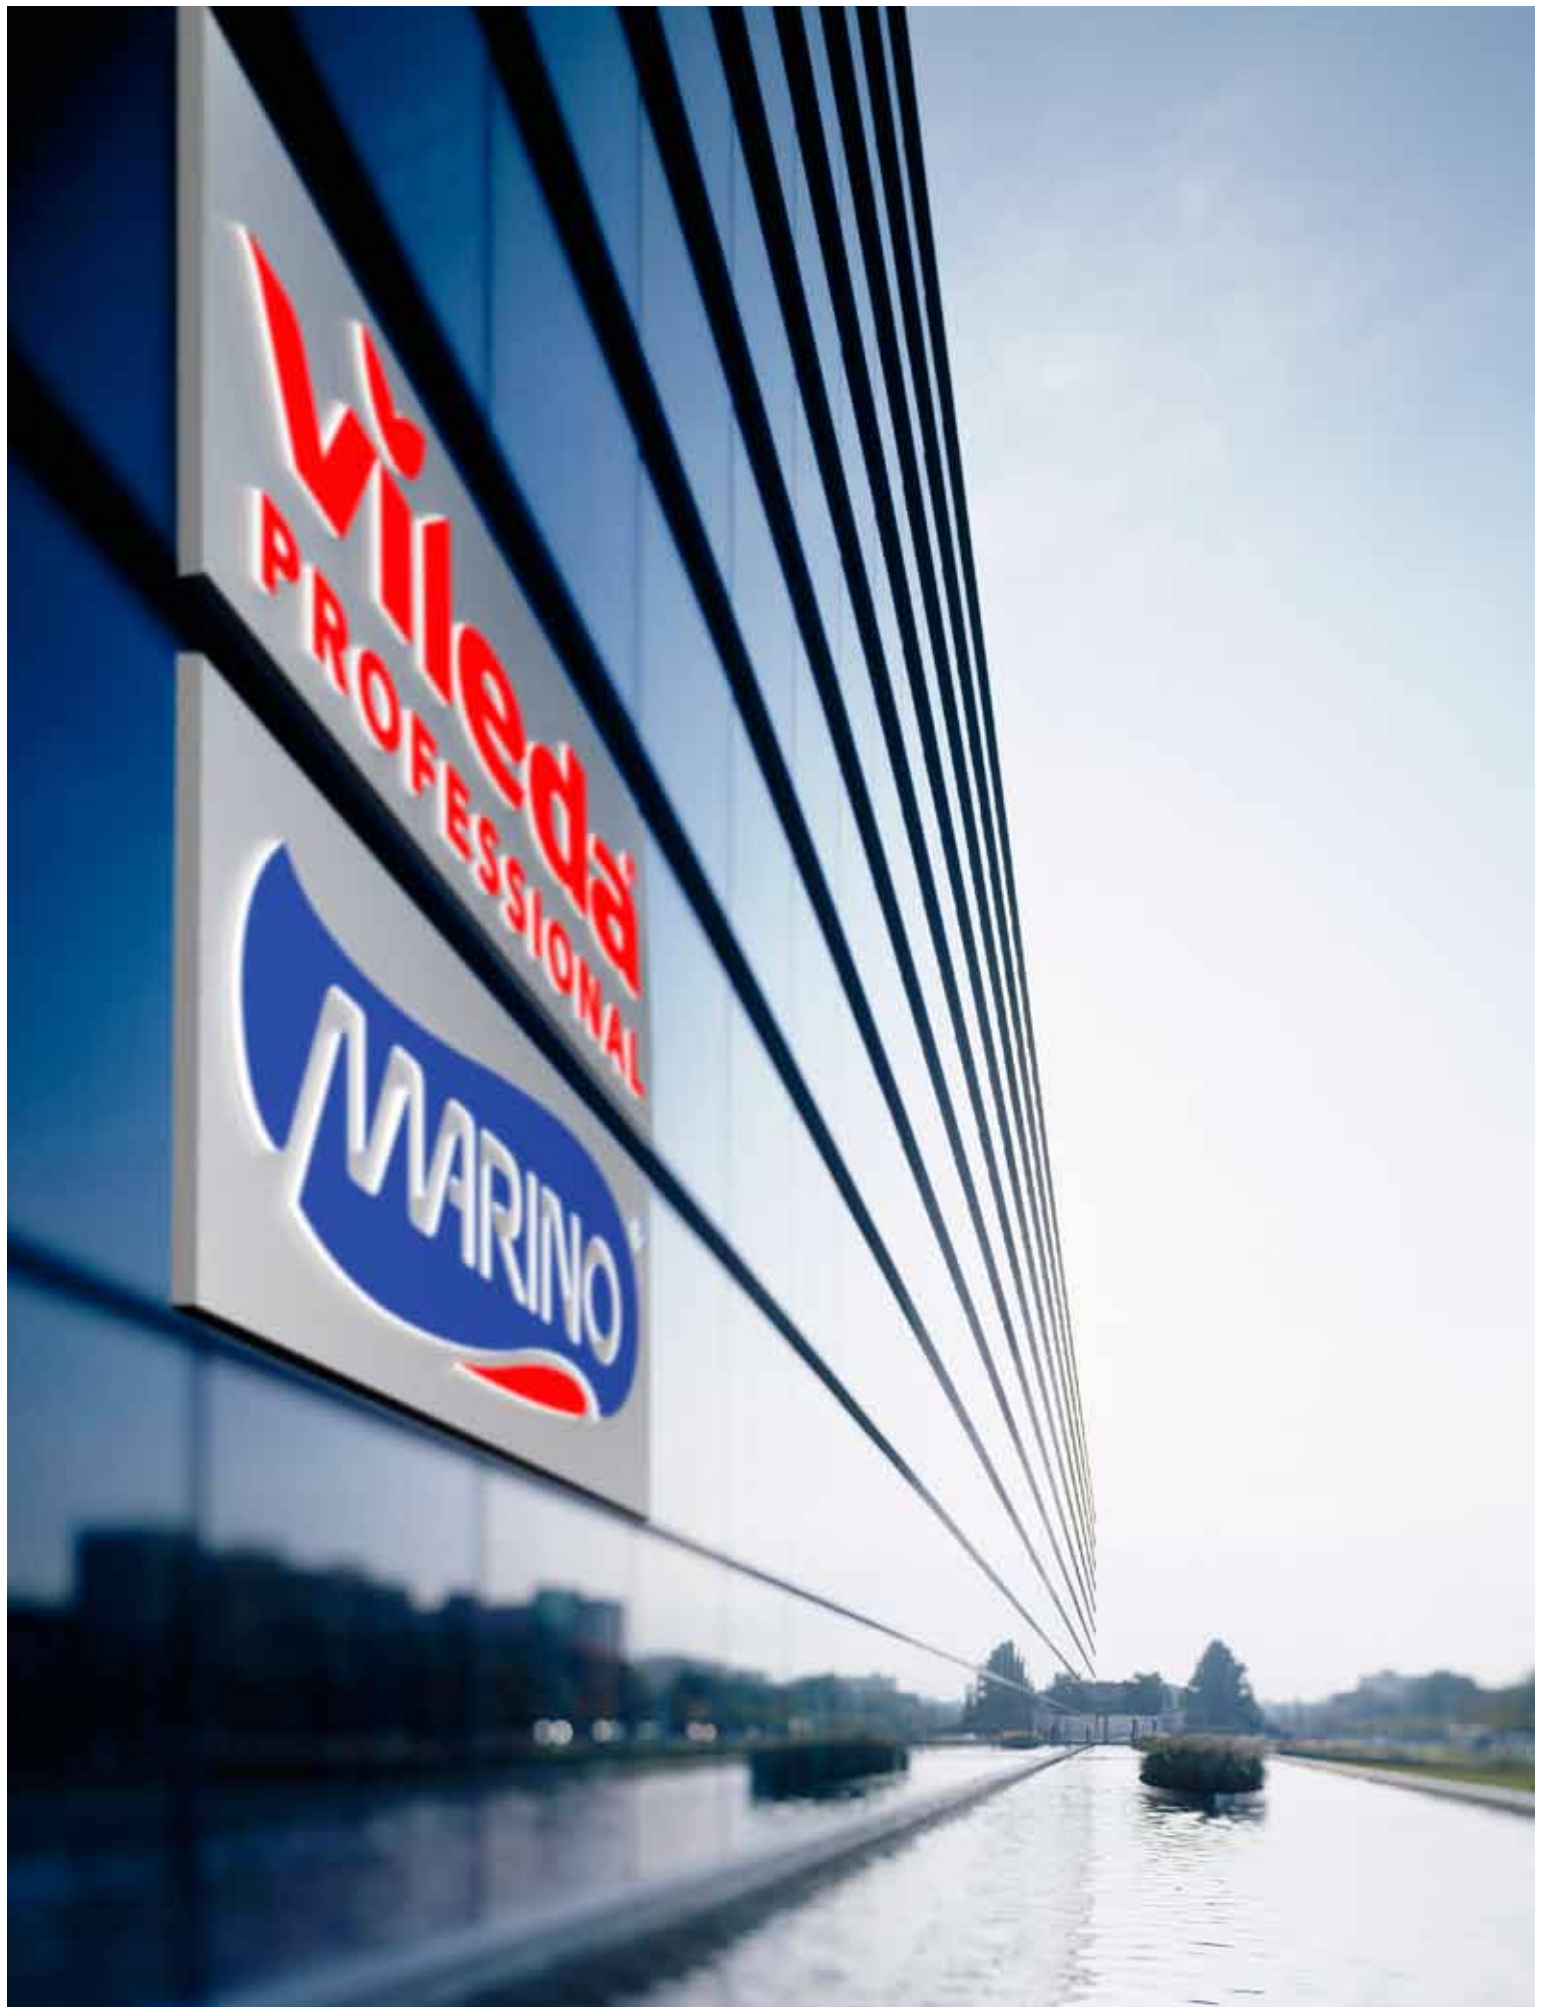

Our primary focus remains providing solutions, systems and products that will improve the end users bottom line.

Quite simply, using Vileda Professional and Marino products are both a cost effective and efficient way of doing business – in any industry whether it's the Commercial, Health Care, Industrial, Foodservice or Hospitality market.

We also share the idea of creating long-term customer relationships and open dialogue. It's important for us to stay in constant contact with our customers and the market.

Our customer relationships enable us to create better solutions based on your needs. In other words, that makes you an integral part of our partnership. A partnership that pays off.

*Welcome to the Vileda Professional,
and the Marino Professional product catalogue!*

The Vileda Professional product range. Innovations and system thinking.

By focusing on overall economical cleaning and ergonomics, Vileda Professional has become Europe's leading manufacturer and supplier of complete cleaning systems. The synergies within the product range offer efficient solutions for all methods and various applications. Now, it is North America's turn to take advantage of this cost effective and efficient approach.

Unique products, patented techniques System thinking is one of the cornerstones behind Vileda Professional's success. Leading-edge innovation and technology is the other. We invest heavily in product development and research every year, resulting in numerous patents and distinct products with unique capabilities. Many of Vileda Professional's products out perform our competitors.

Unbeatable synergies For instance, the Swep Duo mopping system, cuts costs by doubling the area cleaned with each mop. The QuickStar Micro cloth, with its one-step, streak-free wiping action, saves time and money every time. The philosophy is that every single Vileda Professional product offer outstanding cleaning performance and when they are implemented in a cleaning system, they are unbeatable.

The Marino product range. Proven Canadian quality.

Cleaning can be a difficult task. Marino manufactures the products to get the job done. Since founded in Toronto in 1967, The Marino name represents high-quality, durable products and superior service. We are recognized for our strong, durable plastics as well as our wide selection of mops, handles, brooms, brushes and other cleaning products.

Cost efficient quality. Cost efficiency without compromising on quality is one of our key commitments. This commitment applies to all our products starting from the super strong bucket and wringer combination and continues all the way through to the mobile plastic containers, mops, frames, accessories and to the ground breaking Trooper broom.

Diversity. We strive to provide the professional cleaning market with a diversified line of high quality products. Our unique diversity is as important as the technical aspects of our products. Within our extensive range of products you will find exactly what you need – size, material and colour.

Symbols & technical icons

Application areas

Health Care	General Building	HoReCa	
			= Best choice
			= Good choice

Colour coding

With the aid of Vileda Professional's Quattro colour-coding system, it's easy to avoid poor hygiene and cross-contamination. Any product with the Quattro symbol is available in at least four colours.

Technical icons

All the Vileda and Marino Professional products hold a high standard of quality, which means low costs for you in both the short and long-term. The technical icons may show both recommended cleaning methods and laundry advice. Follow the recommendations to get full value from your Vileda or Marino product.
